David Perkins

HNC Civil Engineering

Associate

2006 - present Momentum
2003 - 2006 Buro Happold (Senior Technician)
1989 - 2003 Craddy Pitchers

David joined Momentum in early 2006 and is responsible for the development and production of all the engineering drawings and for CDM within the practice. He has over 20 years experience in the construction industry, working as both a Planning Supervisor and senior technician.

David attends Construction (Design and Regulations) courses and keeps up to date with the latest Health and Safety news, through regular bulletins from the HSE and SCOSS, as well as professional engineering journals, and disseminates the information across the company.
